

Wetting and Dispersing Agent

GENERAL INFORMATION

Disponer 923 are wetting, dispersing, anti-settling agents for solvent based coatings especially in low to medium polarity.

PHYSICAL PROPERTIES

Composition	electroneutral amine salt of
	polycarboxylic acid
Appearance	brown to slight hazy liquid
Non-volatile content	48 - 52%
Solvent	aromatic hydrocarbon solvent
Specific gravity	ca. 0.89
Refractive index	1.488 - 1.498 (25°C)

APPLICATIONS

- ready paint
- epoxy paint
- alkyd / melamine
- · acid cure amino
- chlorinated rubber

KEY PROPERTIES

- Disponer 923 are effective wetting and dispersing agents for inorganic pigments in solvent based paints.
- Disponer 923 exhibit interfacial active property that assist pigment wetting and de-agglomerating.

Dispersion time is then reduced. By their ability of adsorption on pigment surface, stable dispersion against flocculation is obtained. They also retard pigment sedimentation. Once sedimentation forms, it can be easily re-dispersed with mild agitation.

- Both products are also good activator for bentonites. Bentonite pregel produced with addition of Disponer 923 shows the following benefits:
 - · reduced dispering time
 - · improved anti-settling, anti-sagging efficiency
 - · adjustable paste viscosity, easier handling
 - · improved storage stability

INCORPORATION

Incorporate before grinding to achieve optimum result.

LEVELS OF USE

- As dispersant
 0.5 2.0% based on total pigments.
- As bentonite activator
 30 50% based on benton.

HANDLING AND SAFETY

- As it contains a solvents, the product requires special care in handling.
- Avoid any eye and skin contact.
- For further information please check to MSDS.
- Disponer 923 may cause discolouration when used in nitrocellulose coatings.

STORAGE RECOMMENDATIONS

- Keep away form sources of ignition and heat.
- Keep container tightly closed in a dry and well-ventilated place.
- Stored between 0°C to 40°C.
- Below 5°C, appearance may be cloudy or separation, please heat to clear than stir to uniform.
- It should be stored in its sealed original containers.

NOTE: The information herein is currently believed to be accurate. We do not guarantee its accuracy. Purchasers shall not rely on statements herein when purchasing any products. Purchasers should make their own investigations to determine if such products are suitable for a particular use. The products discussed are sold without warranty, express or implied, including a warranty of merchantability and fitness for use. Purchasers will be subject to a separate agreement which will not incorporate this document.

PACKAGING

Net Weight: 180 kg / 25 kg

SHELF LIFE

Disponer 923 has a shelf life of 18 months from date of manufacture.

QUALITY ASSURANCE

Since 1992 the company is a holder of the ISO 9001 / ISO 9002 certificates, which guarantees that all operations are conducted according to the stipulated standards.
